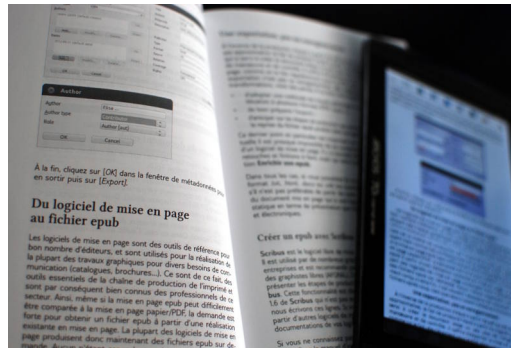

Figure 1: cramped complex apps

Exact measurements -> Liquid layout

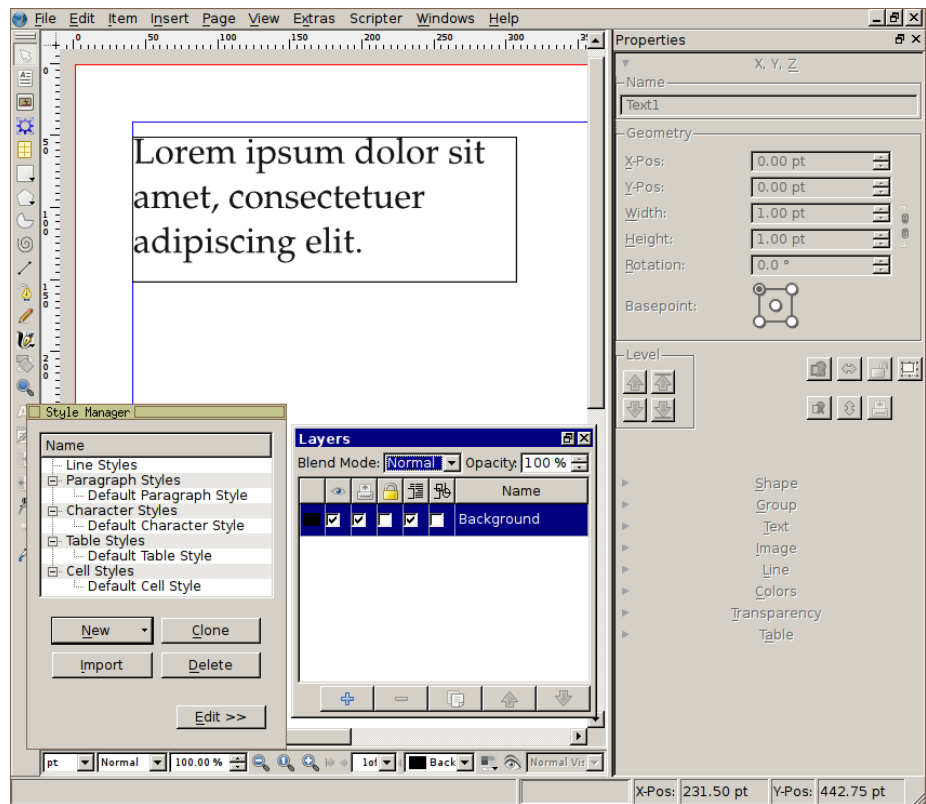

Figure 2: cramped complex apps

Complex software -> Complex UI?

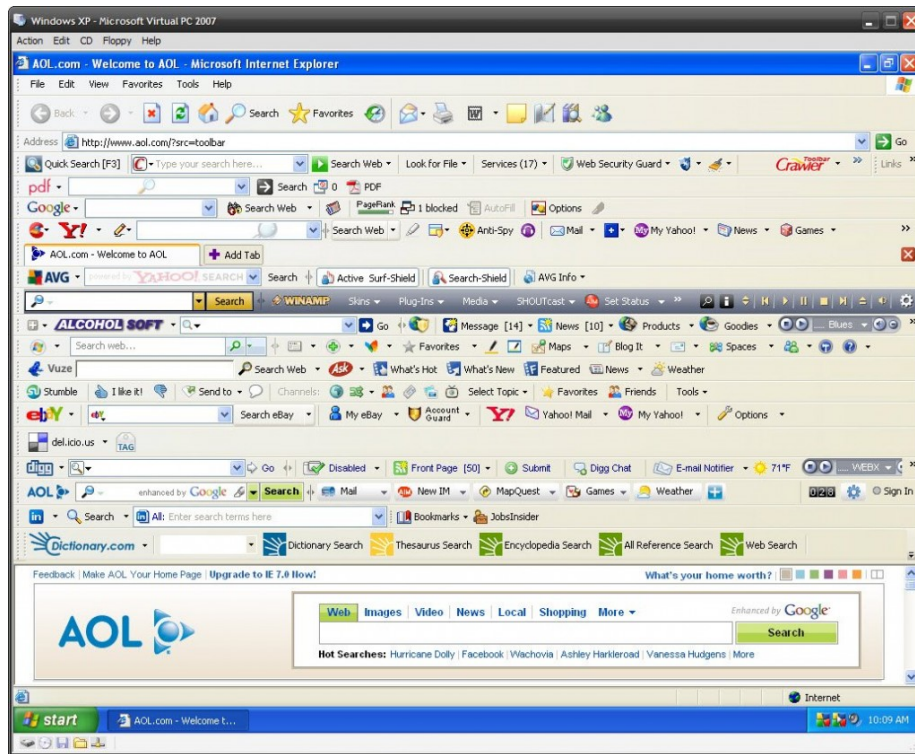

Figure 3: cramped complex apps

Most people don't seem to really mind.

Figure 4: cramped complex apps

But they are comfortable with phones, tablets. . .

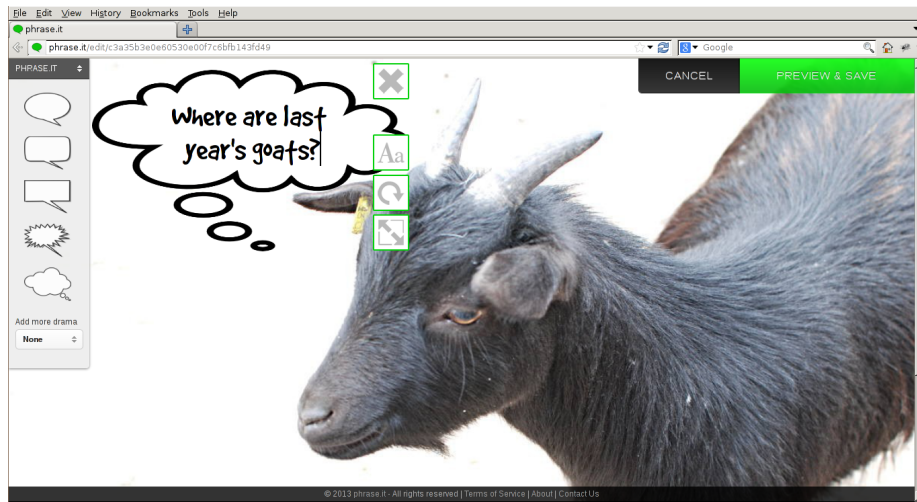

Figure 5: a flash app

... and Flash apps.

Figure 6: this is a pipe

Each App being an isolated island.

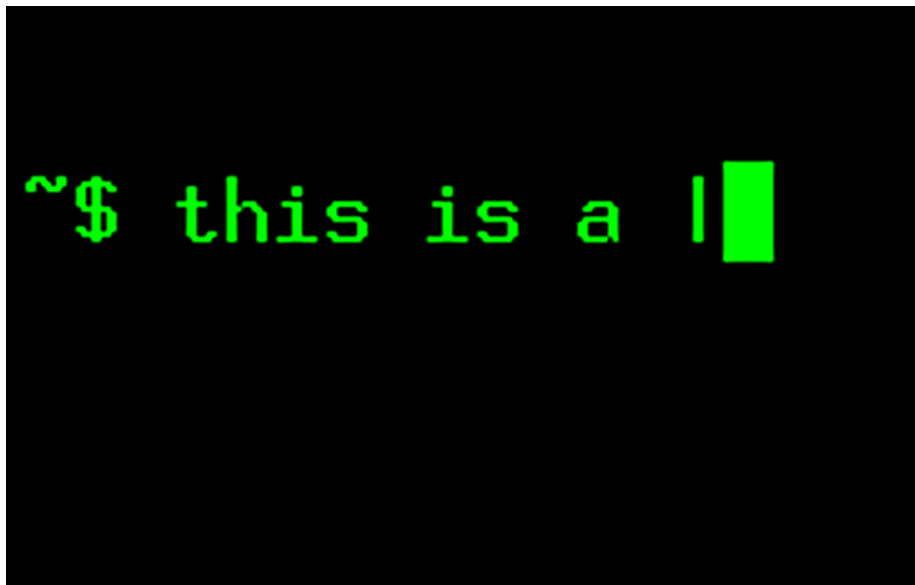

Figure 7: xterm -bg black -fg green

Est-ce que ceci est la |?

```
$ ls -al | cut -c14-16,21- | sort -k5
```

```
ale 102034 Apr  9 18:12 scribus.png

```

Figure 8: terminology

Terminology: a graphical terminal

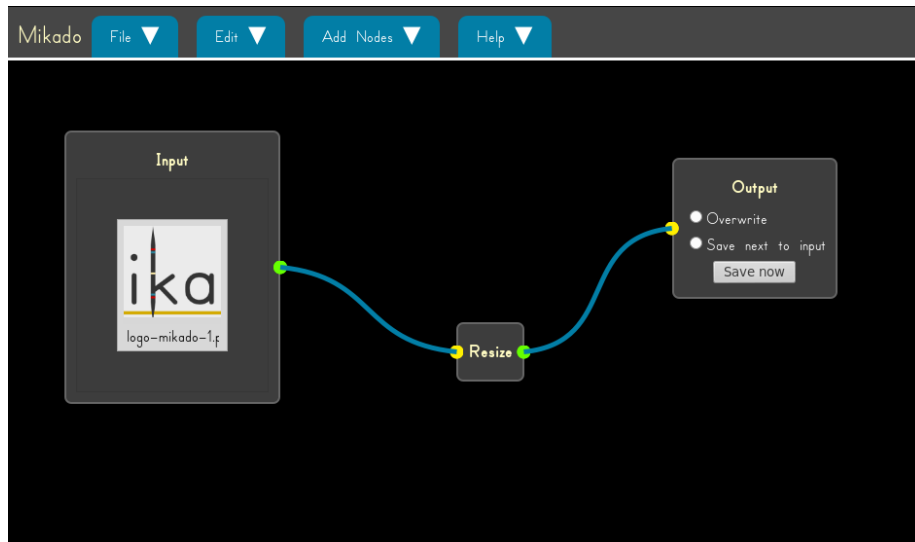

Figure 9: mikado

A GUI inspired by node based editors?

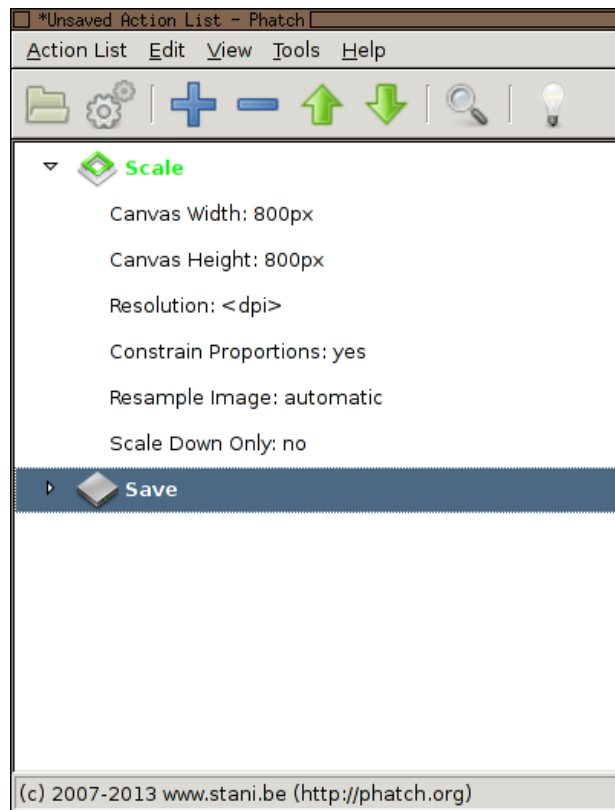

Figure 10: phatch

The Phatch way

```
.lir:imagemap
  xmlns:lir=
  <im:shape
    xmlns:
    type="
    name="
    coordi
```

Figure 11: phatch

XML could be the glue

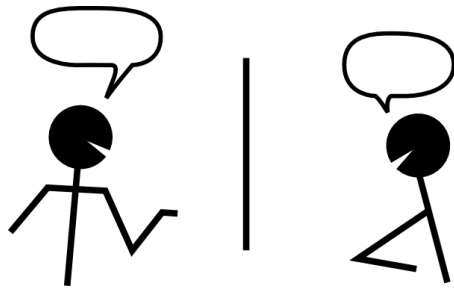

Figure 12: a

How “fat” can the pipe be?

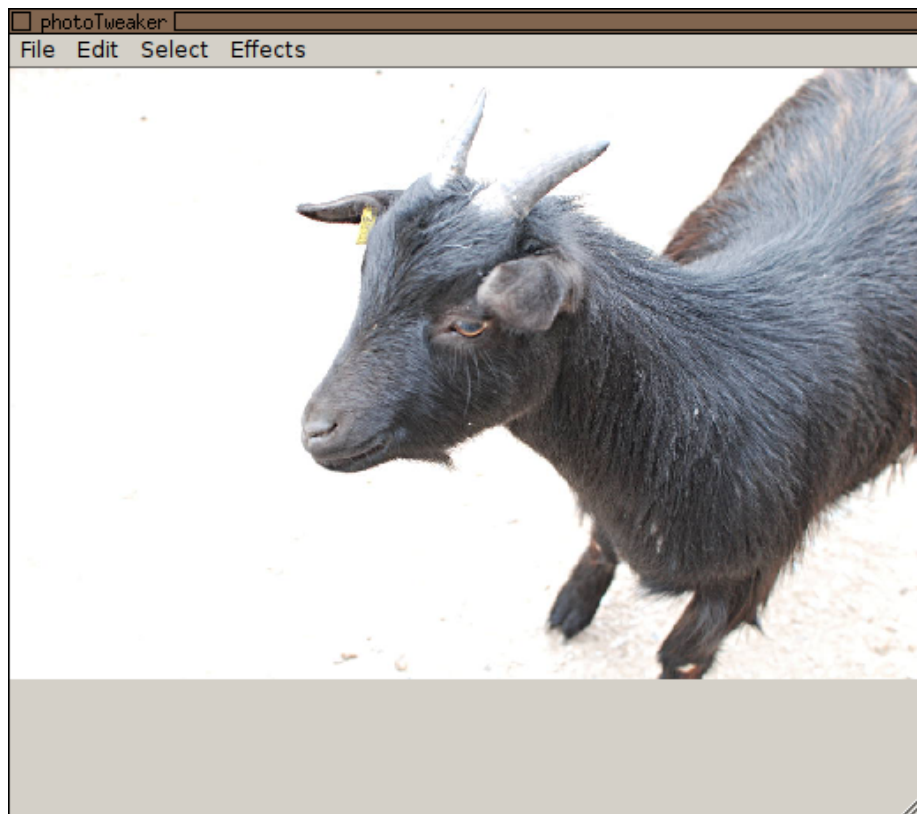

Figure 13: photoTweaker

I've tried it out!

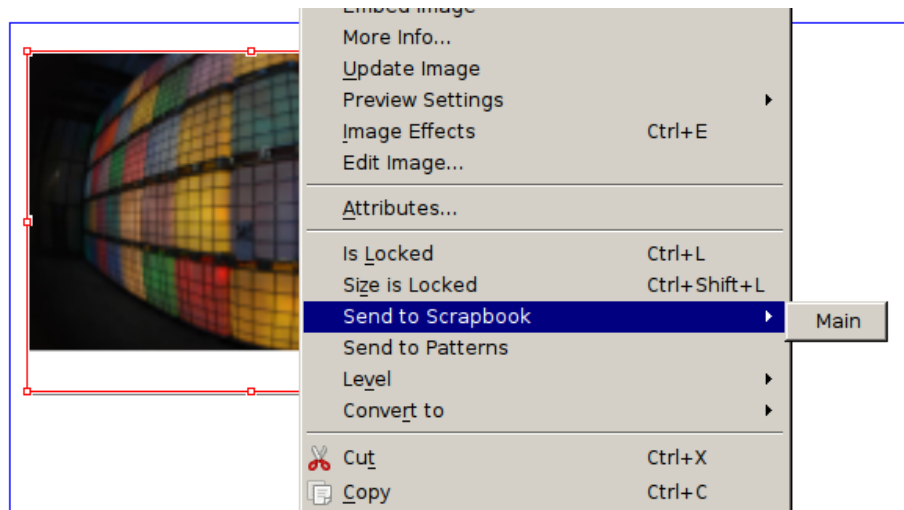

Figure 14: photoTweaker

Taking the screenshot ...

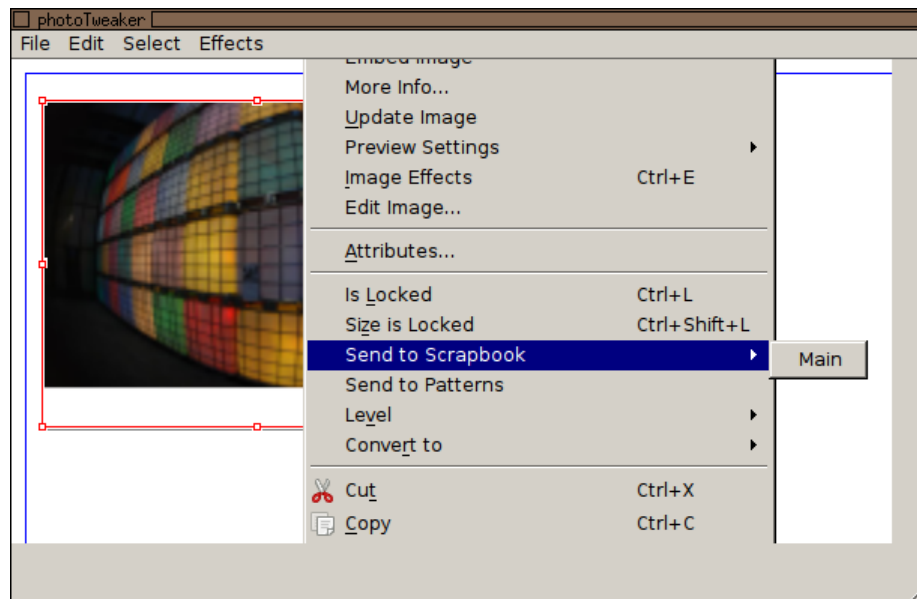

Figure 15: photoTweaker

... cropping and scaling...

Figure 16: photoTweaker

... uploading ...

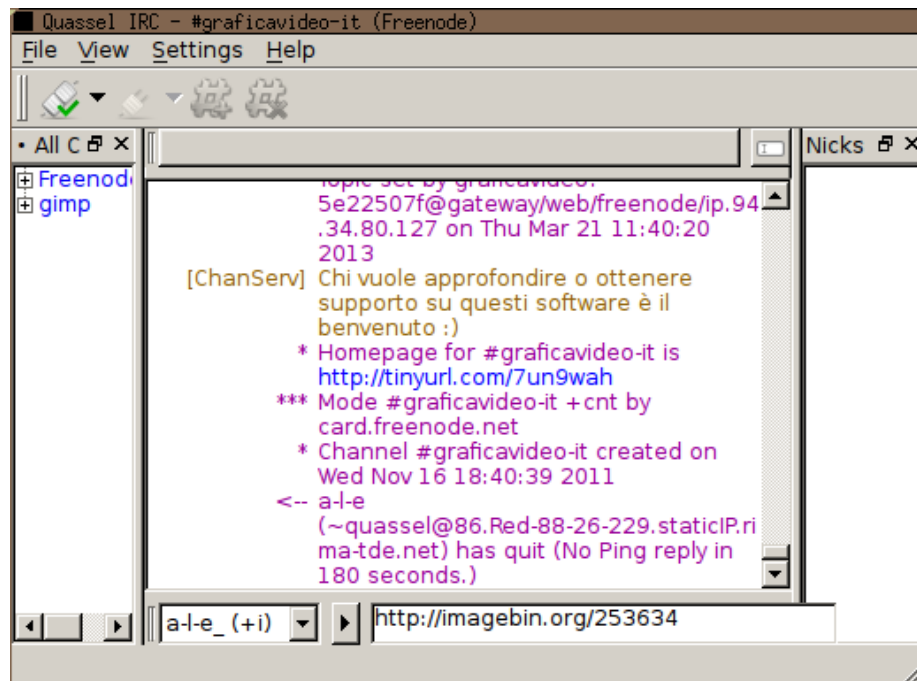

Figure 17: photoTweaker

... show it!

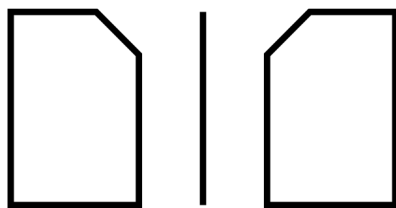

Figure 18: phatch

Piping filenames

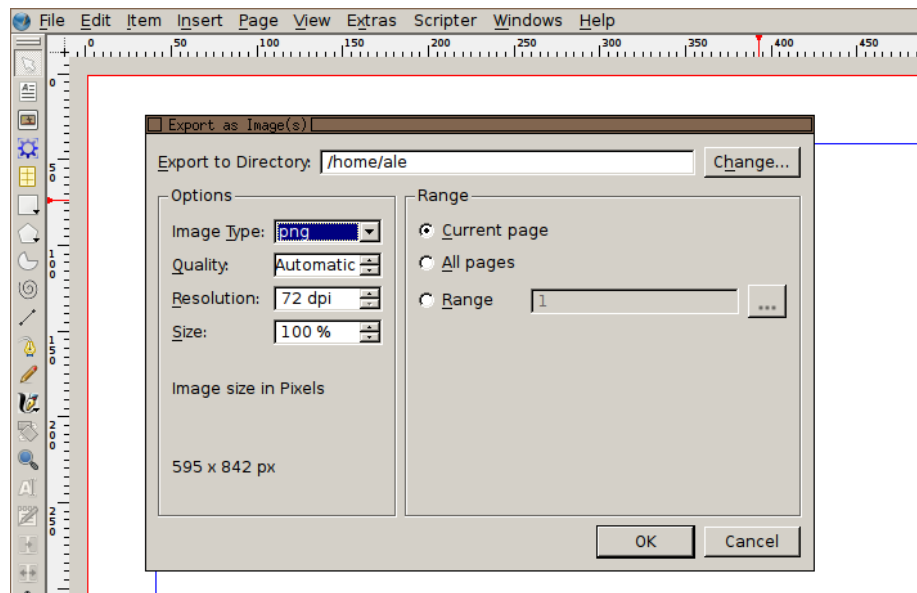

Figure 19: scribus epub export

And what about the publishing world?

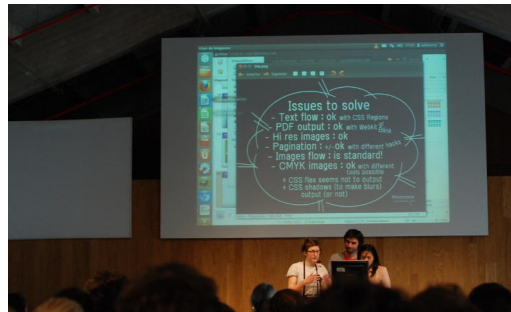

Figure 20: html / css

/me too, likes HTML and CSS.

Figure 21: ceci est une pipe
